MasteryPrep

PREPARING STUDENTS FOR THE
# Classic Learning Test (CLT)

A New Way to Prep for Florida High-Stakes Tests

MasteryPrep provides an asynchronous learning experience to help students improve their content proficiency and succeed on the CLT college entrance exam.

Most students who struggle with testing need guidance in these areas:

- What test-taking skills to implement
- How to deal with test-taking anxiety
- Remediating learning gaps

MasteryPrep will provide a full-length practice test with rigor-matched questions to capture a baseline of how your students are performing on CLT thresholds and achievement levels.

Upon completion, students and teachers will receive real-time analytics highlighting the specific areas where students need to improve to achieve proficiency on the CLT.

The platform will create a Study Plan for students to practice with:

Quick Videos
Average video length <30 seconds, preventing tuning out
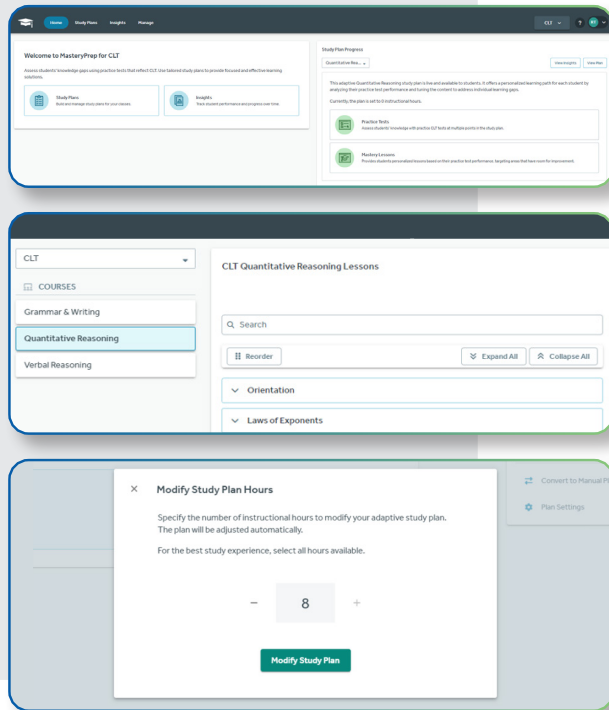

Adaptive Learning Paths
Simulates a conversation, not a lecture

Learn by Doing
Built so students actively engage every minute for optimal learning

Study Plan

• **Real-Time Progress Monitoring**

Easily monitor students' progress to provide timely support and ensure they meet their learning goals.

• **Plan Generator**

Specify your hours, and we'll generate a tailored plan that fits your schedule.

• **Adaptive Sequencing**

MasteryPrep tailors the study plan for each student.
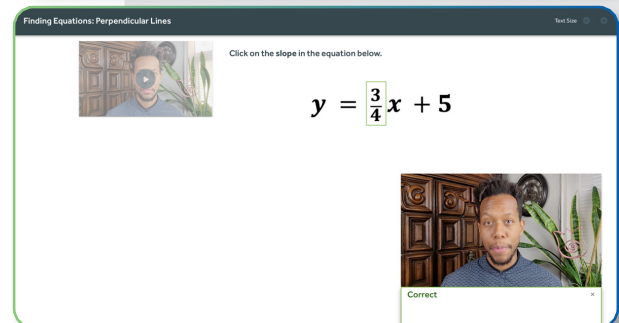

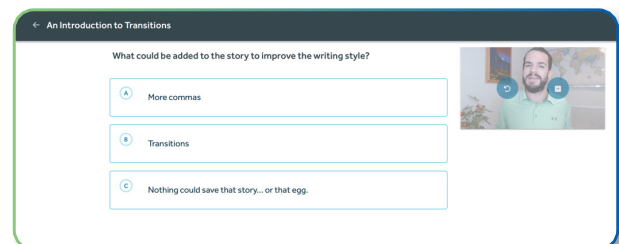

Online Curriculum

Micro videos employ features that assist students to remediate learning gaps and help them learn by doing.

Real-Time Feedback

• Positive reinforcement
• Constructive responses help students learn from their mistakes

Interaction Styles

• Multiple choice
• Click zones
• Matching and sorting
• Free response

The MasteryPrep Difference

MasteryPrep can help students succeed on the CLT to qualify for Bright Futures scholarships, apply to Florida state universities, **satisfy graduation requirements**, and become eligible for dual enrollment.

✓ Easy to use
✓ Easy to monitor
✓ It works
